

IBR VAKUUM PUMP

The quality of the sampling is one of the decisive factors for the result of the oil analysis.

For multiple use in difficult conditions and to avoid contamination during oil removal, we recommend our robust metal **IBR vacuum pump**.

With the aid of the **IBR vacuum pump**, highly viscous oil can be drawn quickly and easily into the screwed-on sample bottle with 38 thread.

The **IBR vacuum pump** is supplied 5 x 1 meter hose.

YOUR ADVANTAGES:

- Simple and cleanest oil removal
- Perfect for professional service
- Many years of use
